Each lunch contains a starch, protein, vegetable, and fruit either within the dish or on the side. Every effort is made to use as much fresh product as possible in order to gain the most nutritional value from the ingredients. Fruit and veggies are not specified as to allow for the freshest products available that week to be used. It is our goal to incorporate as much locally grown and harvested products into our daily meals as possible.

**Local Farms and Businesses:** That'sa Pizza, Bay Bread, Gallagher's, Moomer's, and the Children's House Gardens.
